Gwenda Wong	X	
Sean Matheson	X	

Meeting Minutes

1. Funding Opportunities

Vehicle-to-everything (V2X) bi-directional charging (March 24th – May 4th)

A brief explanation of the funding bid was explained. The project timelines were discussed using the project plan submitted to Innovate UK. An emphasis on community participation was raised, highlighting the importance of surveys before and after project commencement.

Community Energy England Funding Opportunities

Further mention of local North Steads & Sisters Wind Farm Community Fund raised. Last mention of fund closed 13 March 2022. MXG will look to Ulgham Parish Council for more information on this.

LEVI – Local Electric Vehicle Infrastructure Fund

The LEVI fund is open only through NCC participation. Our colleagues at NCC and their climate change team will help us negotiate the funding requirements should we need it.

The North of Tyne Rural Business Growth Service 2020-2023

MXG will look to submit a bid to The North of Tyne Rural Business Growth Service to help support the pilot project in Ulgham

1. Community Engagement

A leaflet has been produced, approved by the UVA and sent off for printing with our friends in Northumbria Print in Coopie's Lane, Morpeth. The UVA will distribute these leaflets at their stall throughout the weekend.

MXG are committed to supporting the UVA and the Parish to facilitate the Jubilee celebrations on the 4th and 5th of June. MXG has recruited 5 able bodied volunteers from the 2nd of June should they be needed to help set up for the weekend.

MXG intend to distribute leaflets to the village households to further insight into community engagement. MXG also intend to visit interested parties personally to help explain the project on a one-to-one basis.

2. Northumberland County Council Involvement

We will be working with the Northumberland County Council's climate change team. We will be reporting to Nick Johnston (Senior Project Manager) and Diego Perera (Assistant Project Manager) at Northumberland County Council.

3. Date of Next Meeting

Working Group members will meet online again at 14:00 on the 20th June 2022.
