March 2023

## ***Storm Otto and recent storm warnings.***

it was refreshing to get lots of information and advice from Northern Powergrid.

However they still don't seem to realise that if there is no electricity, computers and landlines do not work and mobiles need to be charged.

The WI Hall is the centre of activity in Ulgham Village and if there is power cut of serious proportions or something else which affects a significant portion of the village/parish, help will be available there; the UVA associates and parish councillors will open that facility and provide support . Of course family, friends and neighbours are also very important in these circumstances.
